

## **Piru Petroleum trip Happy Wanderers November 2023**

Many campers arrived on Thursday (6 rigs) , all visited the local Mexican restaurant for dinner we had a great time . All returning safely to camp that evening with No plant alarms sounding ... LOL

Friday the remainder of the campers arrived (4) throughout the day. For a total of 10 Rigs camping for the campout. Friday was a quiet day of visiting and refreshments at the wagon master's camp. The Veterans luncheon was being provided by the petroleum club. They were packed and a few of us attended it was a very good lunch of Prime rib, chicken, and a lot of fixins.

**Friday** evening was on your own for dinner.

**Saturday**, we had Breakfast Burritos and most of our campers attended with the exception of our clubs leader which left the camp out early to attend meetings at the Lodge , a UCLA football game of all things ....

**Saturday** was again met with refreshments and conversations at the wagon master's site a very relaxing time. Some enjoyed games in the dining hall I think Mexican Train. We then started dinner of the turkey's cooked two different ways, campers brought all their goodies to the dining hall as well we enjoyed an awesome meal amongst awesome friends. We had many visitors come and join for the dinner and some just to visit with us for a bit .

Saturday evening continued with more conversation and games in the dining hall we had a warm fire in the fireplace for all to enjoy.

**Sunday** was the dreaded return home day, and all made return trip safely. We will return to Piru next year dates to come.

I want to thank all campers for stepping up to assist with the cooking set up and the cleanup and make this a very nice and very relaxing campout for all.
